## PRODUCT BULLETIN

## ALUM BRITE <br> Aluminum Cleaner

## General Description

Alum Brite is a concentrated blend of aggressive acids, detergents and cleaners designed to clean aluminum, stainless steel and fiberglass. A unique detergent action is strong enough to remove carbon deposits.

## Application

Alum Brite can be used as provided for heavy oxidation and scale or Alum Brite can be diluted in ratios of $1: 1$ to $1: 15$ in water depending on surfaces to be cleaned. Alum Brite can be applied with a brush or sprayer on wet surfaces. Apply from the bottom and work up allowing two to five minutes for penetration of the deposits. Rinse well with water while brushing in order to get a brighter surface. For fiberglass, use as provided, spray or brush onto surface, brush off deposits and rinse.

## Safety

Extreme care should be used when spraying this product to avoid over-spray on equipment, vegetation, animals or people. Proper personal safety equipment should be worn at all times when handling this product (or any chemical products). Refer to the MSDS for additional information on handling and disposal of this material.

## Physical Properties

| Color | Water-white |
| :--- | :--- |
| Odor | Acid |
| Water Solubility | $100 \%$ |
| Density | $8.95 \mathrm{lbs} . /$ gallon |
| Freeze Point | $28 \circ \mathrm{~F}$ |

## Availability

Alum Brite is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.
Handling
Observe warning label on containers. Normal precautions for industrial chemicals apply.
