PRODUCT BULLETIN

BAY WASH 2

Cleaner/Dispersant

General Description

BAY WASH 2 is an excellent biodegradable, water based cleaner with aggressive detergency action for high performance cleaning of oil and grease in marine and heavy industrial applications. **BAY WASH 2** is excellent as a bilge cleaner and dispersant. **BAY WASH 2** has been proven to be very effective in cleaning grease, oils, and hydraulic fluids from concrete surfaces.

Application

BAY WASH 2 may be used on any surface not harmed by water. The emulsification properties and moderate pH of **BAY WASH 2** make it an ideal degreaser and dispersant. **BAY WASH 2** may be applied by mop, brush, sponge, or spray. Allow for penetration prior to wash down. When using a pressure washer, take care not to over spray onto freshly painted surfaces and the cleaner may streak the paint.

Dilutions

For best results, dilute **BAY WASH 2** up to 1 : 5 in water for extremely soiled concrete surfaces; up to 1 : 10 on moderately soiled surfaces; and up to 1 : 12 on oil spills. When used as a bilge cleaner, use 1:10 for extremely contaminated bilges, and up to 30:1 for normal oil control.

Physical Properties

Appearance	Clear liquid
pH	< 12.5
Boiling Point	212° F
Specific Gravity	1.03

Availability

BAY WASH 2 is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
