PRODUCT BULLETIN

SWIPE 1550 CLEANER

Interior Cleaner for Aircraft (Compliant to AMS 1550A)

General Description

SWIPE 1550 CLEANER is a water-based, liquid, concentrated cleaner, used for cleaning cabin and baggage areas of aircraft interiors. It is particularly effective for cleaning windows and mirrors. **SWIPE 1550 CLEANER** is a concentrated cleaner that is safe on Plexiglas™, paint, and electrical insulation. **SWIPE 1550 CLEANER** is nonflammable and is safe to use on aluminum, magnesium, ferrous alloys, and high-strength steel surfaces. **SWIPE 1550 CLEANER** is biodegradable, non-toxic, and conforms to: AMS 1550A, Douglas CSD #1, Boeing D6.

Application

SWIPE 1550 CLEANER is a bright blue, fragrant liquid that is easily applied with any type of spray or soft cloth. Just apply and wipe off. The surface dries immediately to a sparkling shine. For cleaning aircraft interior surfaces, use as received, or mix 1 part of **SWIPE 1550 CLEANER** with 1 part water. Apply to surface being cleaned with a rag or window-cleaning bottle (spray-type). Pick up loosened dirt on a clean, dry rag. No other rinse is necessary. This procedure is used on hard, nonporous surfaces, such as metal, wood, and vinyl plastic. For cleaning upholstery, rugs, and other soft surfaces, mix 1 part **SWIPE 1550 CLEANER** with 1 part water. Wet a fiber-bristle brush well with solution and agitate the surface vigorously to generate foam. Pick up foam on a clean, dry rag. Normally, this procedure is conducted in such a manner that the fabric surface is wet as little as possible. **SWIPE 1550 CLEANER** may be used to remove heavy soiled spots on carpets. For ease of pick-up of residues from glass, mirrors or glossy surfaces, dilute **SWIPE 1550 CLEANER** with up to 10 parts water.

Physical Properties

Form	Clear, Blue Liquid
Odor	Slight Ammonia
Specific Gravity	0.95 – 0.98
pH	11.5
Flash Point	None
Solubility	Water Soluble

Availability

SWIPE 1550 CLEANER is available in 1 gallon pails, 5 gallon pails and 55 gallon drums.

Handling

Observe warning labels on containers and MSDS. Normal precautions for industrial chemicals apply.
