PRODUCT BULLETIN

RUST DISSOLVER

Acid Cleaner

General Description

RUST DISSOLVER is a concentrated aqueous blend of acid, detergent, inhibitors and water soluble solvents designed to rapidly clean equipment contaminated by scale deposits and rust. **RUST DISSOLVER** *does* contain a small percentage of Hydrochloric Acid. A side effect of this product is the ability to provide a temporary rust inhibiting property to the metal to help prevent flash rusting prior to the equipment being placed into service.

RUST DISSOLVER is recommended for acidizing process equipment by circulating engineered dilutions using acid resistant pumps and related equipment, cleaning pipelines, tanks, or process equipment contaminated with scale or rust.

Physical Properties

Color	Clear to Light Amber
Specific Gravity @ 60°F	1.08 - 1.12
Density @ 60°F	9.10 - 9.20
Solubility in water	100%

Availability

RUST DISSOLVER is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
