PRODUCT BULLETIN

ELECTRONIC CLEANER G59

Safety Cleaning Solvent

General Description

ELECTRONIC CLEANER G59 is an economical environmentally safe solvent blend made especially for generator and electrical motor cleaning and degreasing, electronic circuit boards, electronic or manual starters, high and low voltage systems, or on any piece of equipment that needs to be cleaned safely and effectively. With its high evaporation rate and no residual, **ELECTRONIC CLEANER G59** will have no deleterious effect on the equipment being cleaned. **ELECTRONIC CLEANER G59** does NOT contain any chlorinated solvents, is environmentally safe and is not harmful to the Ozone Layer.

ELECTRONIC CLEANER G59 may be used on grease, oil, hydrocarbons, paraffins, and resins. It is nonflammable, noncorrosive and nonconductive; it is self-evaporation at ambient temperatures and it does not leave a residue. **ELECTRONIC CLEANER G59** is a non-toxic solution made from harmless solvent blends that will not damage equipment chemically or physically.

Application

Apply as a spray or a wipe. Spray **ELECTRONIC CLEANER G59** undiluted on all parts for best results. Allow to dry.

Physical Properties

Specific Gravity	1.01 – 1.025
Dielectric Strength	> 25,000
KB Value	> 100
Boiling Point	> 200° F
Flash Point	> 160° F

Availability

ELECTRONIC CLEANER G59 is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
