PRODUCT BULLETIN

WASH 1 CONCENTRATE

Truck Wash Acidic Pre-Cleaner Concentrate

General Description

WASH 1 CONCENTRATE is a heavy-duty acidic pre-cleaner for use as the first step in a two-step washing process. Use **ONLY** through an appropriate 2-Step machine. **DO NOT** allow to dry. After surface is fully wetted, it must be cleaned with our **TRUCK WASH CONCENTRATE (WASH 2 Conc)** which is the alkaline second step. Cleaner must be fully rinsed before it dries. **WASH 1 CONCENTRATE** is formulated for fast and efficient removal of industrial soils such as road film, bugs, oil, grease, fuel stains, grime, brake dust, and diesel smoke. Its interaction with **TRUCK WASH CONCENTRATE** (our second step alkaline-based cleaning solution) will completely break the bond of road film, grease, oil, and dirt from the surface. It is safe for use on brushed aluminum surfaces; however, it is not safe for use anodized or mirror-polished aluminum surfaces.

WASH 1 CONCENTRATE contains Hydrogen enriched “safe acids”. **WASH 1 CONCENTRATE** does *not* contain Hydrofluoric Acid. Appropriate personal protection must be used when applying this product. Do not use this product without reading all label and MSDS warnings and precautions.

Application

WASH 1 CONCENTRATE is a concentrated cleaner that should be diluted with water for best cleaning results. Use **WASH 1 CONCENTRATE** through a hot or cold pressure washer. **WASH 1 CONCENTRATE** provides superior cleaning and performance at a low cost per gallon used. Use at normal dilutions of 25:1 or dilutions up to 100:1.

Physical Properties

Color	Clear
Odor	Acidic
Solubility	Water
Specific Gravity	1.02
Density	8.5 lbs./gallon
Flash Point	None
pH	0.5 - 1.0

Availability

WASH 1 CONCENTRATE is available in UN approved 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers and MSDS. Spot test an inconspicuous area for surface compatibility. Protect from freezing. Normal precautions for industrial chemicals apply.
