

PRODUCT BULLETIN

CITRASOLV 5

Solvent Degreaser

General Description

CITRASOLV 5 is a biodegradable, non-toxic, multi-purpose cleaner which is formulated using oils extracted from the processing of citrus fruit, nonionic surfactants, and cleaning aids. It contains no harmful chemical additives, chlorinated hydrocarbons or EPA rated hazardous ingredients. **CITRASOLV 5** is effective in cleaning petroleum grease, tar, asphalt, and any type of oily soil. **CITRASOLV 5** is environmentally friendly, economical to use and its fragrant citrus aroma leaves areas smelling clean and fresh. It has a natural antibacterial action which helps to sanitize as you clean.

Application

CITRASOLV 5 should be used as provided for cleaning oils, tars, or greasy surfaces. **CITRASOLV 5** can be diluted with water to desired concentration for general cleaning of walls, floors, or cooking areas. **CITRASOLV 5** should be sprayed, brushed, mopped or wiped on contamination; allow to penetrate and then wiped or flushed off with fresh water.

| Specific Gravity | 0.838 |
| pH | Neutral |
| Flash Point | 120 - 130° F |

Availability

CITRASOLV 5 is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

*Although **CITRASOLV 5** is a natural product, its excellent solvating abilities require some precaution in use. Gloves are recommended if working with the product for long periods or if skin is sensitive. Avoid contact with the eyes. Always test **CITRASOLV 5** on an inconspicuous area before use. Styrene based plastics are affected by **CITRASOLV 5** to varying degrees. Since such plastics are difficult to identify, we do not recommend the use of this product on plastic finishes of any kind. Some types of rubber products are also affected by prolonged exposure and contact with these materials for longer periods should be avoided.*
