PRODUCT BULLETIN

Isopropyl Alcohol Antiseptic Gel 75%* Germicidal Hand Cleaning Gel

General Description

Isopropyl Alcohol Antiseptic Gel 75% is an alcohol-based, hypoallergenic hand gel for persistent antimicrobial activity against pathogenic organisms. Effective over a broad range of bacteria, viruses, yeast and fungi in 15 seconds or less. Helps inhibit growth of bacteria on skin between hand washes. No need for water or towels.

Isopropyl Alcohol Antiseptic Gel 75% contains isopropyl alcohol, currently FDA approved for hand sanitizing formulations. **Isopropyl Alcohol Antiseptic Gel 75%** is a highly effective agent that provides broad spectrum antimicrobial activity against gram negative and gram positive bacteria, including antibiotic-resistant organisms MRSA and VRE. Formulated with moisturizers to increase skin hydration, unlike plain alcohol.

Application

Hand hygiene is an important part of the U.S. response to COVID-19. If soap and water are not readily available, the Centers for Disease Control and Prevention (CDC) recommends consumers use an alcohol-based hand sanitizer that contains at least 60 percent alcohol. Apply **Isopropyl Alcohol Antiseptic Gel 75%**, rub hands together until product evaporates.

Physical Properties

Color	Clear Liquid Gel
Odor	Fresh Sharp Alcohol Odor
pH	7.5 - 8.5
Alcohol Content	75% by volume
Freeze Point	< 32° F
Flash Point	~ 75° F
