PRODUCT BULLETIN

ELECTRO CLEAN-3

Safety Cleaning Solvent

General Description

ELECTRO CLEAN-3 is a safety solvent made especially for generator and electrical motor cleaning and degreasing, electrical switch cleaning, and as a part washing solvent when a fast drying no residue surface is needed post cleaning. With its high evaporation rate and no residual, **ELECTRO CLEAN-3** will have no deleterious effect on the equipment being cleaned. **ELECTRO CLEAN-3** is effective for cleaning stainless steel oxygen lines and for cleaning stainless steel prior to welding.

ELECTRO CLEAN-3 may be used on grease, oil, hydrocarbons, paraffins, and resins. It is nonflammable, non-corrosive and nonconductive; it is self-evaporation at ambient temperatures and it does not leave a residue.

Application

Apply as a spray or a wipe. Spray undiluted on all parts for best results. **ELECTRO CLEAN-3** may be diluted with common aliphatic solvents such as diesel or kerosene for economy when an oily residue is acceptable on the cleaned surface.

Physical Properties

Specific Gravity	1.619
Dielectric Strength	>39,500
KB Value	90
Boiling Point	250.5 °F
Flash Point	None

Availability

ELECTRO CLEAN-3 is available in UN approved 5 gallon pails, 55-gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply. This document does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this product to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
