PRODUCT BULLETIN

FED SPEC O-E-760D Type III MIL-A-6091C

Denatured Alcohol

General Description

FED SPEC O-E-760D Type III / MIL-A-6091C is a Completely Denatured Alcohol and contains ingredients which render the product wholly unfit for beverage purposes. If taken internally, it will cause serious consequences to health. Type III ethyl alcohol is made from alcohol which conforms to the requirements of Type II, grade A prior to denaturing. In addition, it is one of the formulas contained in 27 CFR 21, Formulas for Denatured Alcohol and Rum, issued by U.S. Treasury Department, Bureau of Alcohol, Tobacco and Firearms. Unless otherwise specified in the contract or order, Type III denatured alcohol shall conform to Formula No. 3-A.

Physical Properties

Appearance / Odor	Clear Liquid / Alcohol Odor
Specific Gravity	0.79 – 0.80
Water Miscibility	Complete
Flash Point	50°F
Nonvolatile Residue	< 0.003 mg/ml
Alkalinity	< 3 ppm

Availability

MIL-A-6091C is available in Quarts, gallons, 5 gallon pails, 55-gallon drums, tote tanks, and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply. This document does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this product to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
