## PRODUCT BULLETIN

### SPEC HIB DCA 35

#### Calcium Chloride Dust Control

##### General Description

**SPEC HIB DCA 35** is a Calcium Chloride based dust control liquid that can be used to extend the life of gravel roads and parking lot surfaces. Composed of 35% Calcium Chloride, (CaCl<sub>2</sub>), this dust control works by binding fine dust and aggregate particles to keep surfaces stable and dust free. Attracting moisture from the air and its surroundings, this dust control keeps unpaved surfaces damp and the dust down.

##### Application

Treating Rate: Use as provided. Apply one gallon of **SPEC HIB DCA 35** per 30 square foot of surface area to be treated. Cure time is approximately 10 minutes depending on relative humidity, with surfaces being dry to the touch in 24 hours.

##### Physical Properties

Color / Odor	Clear / Bland (Odorless)
pH	8.8 – 9.2
Specific Gravity	1.35
Density	11.23 lbs./gal
Application Temperature Range	0°F - 100°F
Flash Point	None
Solubility	100% in Fresh Water

##### Availability

**SPEC HIB DCA 35** is available in UN approved 5-gallon pails, 55-gallon drums, 275 and 330g IBC, and bulk quantities.

##### Handling

Observe warning labels on containers. Normal precautions for industrial chemicals apply. This document does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this product to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
