PRODUCT BULLETIN

ACID NEUTRALIZER 3

Weld Cleaning Neutralizing Fluid

General Description

ACID NEUTRALIZER 3 is a ready to use solution that is used for neutralization and passivating stainless steel surfaces after welding, cleaning welds, polishing or marking and etching process. When acidic cleaning processes are used, **ACID NEUTRALIZER 3** will remove all traces of acidity and white stains from metal surfaces. **ACID NEUTRALIZER 3** is a water based non-hazardous blend.

Application

When using automated cleaning equipment, **ACID NEUTRALIZER 3** should be used as provided following equipment manufactures guideline. To manually apply **ACID NEUTRALIZER 3**, apply the product on the surface by pouring or prewetting a sponge or rag. Spraying is NOT recommended for manual application to avoid appearance of white stains. Always use a clean cloth for wiping away the neutralizing fluid. Do not allow product to dry on surface to avoid white staining.

Physical Properties

Appearance	Clear to Light Amber Liquid
Freezing Point	32°F
Flash Point	Non-flammable
Solubility in Water	Complete
pH	8.0 – 9.0
Specific Gravity	1.00 – 1.01

Availability

ACID NEUTRALIZER 3 is available in UN approved 5-gallon pails, and 55-gallon drums and bulk quantities.

Handling

Observe warning labels on containers. Normal precautions for industrial chemicals apply. This document does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this product to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
