## PRODUCT BULLETIN

### ABS TRAP

#### Asbestos Binding Solution

##### General Description

**ABS TRAP** is a non-toxic, multi-purpose, and ready-to-use, low pressure airless spray applied wetting and penetrating encapsulant for all forms of friable asbestos. **ABS TRAP** allows for efficient, safe and efficient removal and handling of ACM (Asbestos Containing Material). **ABS TRAP** securely adheres to and *binds* friable ACM. **ABS TRAP'S** unique surfactant properties will quickly penetrate and encapsulate asbestos fibers for removal. **ABS TRAP** can then be misted over the work area as a lock down encapsulant to seal any remaining asbestos fibers to the substrate. When dry, **ABS TRAP** forms a clear, non-abrasive, flexible film for safe and effective handling of ACM.

##### Application

**ABS TRAP** may be applied with a low pressure airless sprayer, hand pump-up garden sprayers or poured directly on the ACM.

##### Physical Properties

Color	White (or various tinted colors)
Odor	Slight Ammonia
Specific Gravity	1.030
Density	8.56 lbs./gallon
pH	< 10
Flash Point	None
Solubility	Infinitely soluble in Water
VOC (Volatile Organic Compounds)	None

##### Availability

**ABS TRAP** is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

##### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
