PRODUCT BULLETIN

ALUM BRITE

Aluminum Cleaner

General Description

ALUM BRITE is a blend of gentle acids, detergents and cleaners designed to clean aluminum, stainless steel and fiberglass. A unique detergent action is gentle yet strong enough to remove carbon deposits.

Application

ALUM BRITE can be used as provided for heavy oxidation and scale or **ALUM BRITE** can be diluted in ratios of 1 : 1 to 1 : 15 in water depending on surfaces to be cleaned. **ALUM BRITE** can be applied with a brush or sprayer on wet surfaces. Apply from the bottom and work up allowing two to five minutes for penetration of the deposits. Rinse well with water while brushing in order to get a brighter surface. For fiberglass, use as provided, spray or brush onto surface, brush off deposits and rinse.
