

PRODUCT BULLETIN

CARNAUBA WAX 340 Concentrate

Carnauba Spray Wax

General Description

CARWAX-340 is an extremely effective concentrated liquid catatonic emulsion of pure carnauba wax. The catatonic emulsifiers function to ensure rapid and uniform deposition of a thin film of carnauba wax on most substrates, including fabric, metal, wood, leather and painted surfaces.

Application

CARWAX-340 can be used undiluted to protect finished or finished wood by coating and allowing to dry. **CARWAX-340** forms a long lasting, hard and impervious protective coating. Wood surfaces can be buffed after drying to achieve a high gloss. When used as a general protective coating, dilutions of **CARWAX-340** may be dip-bath or sprayed on leather, paper, fiberglass, painted or unpainted metal surfaces, aluminum, or fabric substances and a thin uniform coating of wax will instantly adhere to the surface. This protective coating will resist dirt, provide gloss and make surfaces easier to clean.

Physical Properties

Color	Dark Brown or Black Liquid
Odor	Low
Specific Gravity	1.01
Density	8.4 lbs./gal
pH	Neutral
Flash Point	None
Solubility	Water Soluble

Availability

CARWAX-340 is available in UN approved 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers and MSDS. Normal precautions for industrial chemicals apply.
