PRODUCT BULLETIN

CONCRETE RELEASE AID 40

Non-toxic Concrete Anti-Stick Aid

General Description

CONCRETE RELEASE AID 40 is an extremely effective liquid concentrated product when diluted with water, will make hard surfaces resistant to sticking from spattered or spilt concrete.

Application

It is recommended that the product is diluted with water 9:1 (one 5 gallon pail in a 55 gallon drum topped of with water) to make the solution to spray on the surfaces to be protected. Apply product and allow the water to evaporate. The surface is now ready for use. If the surface is cleaned, reapply the product as noted above. If the job site is expecting extreme spattering or spillage, dilute 4:1 (10 gallons per 35 gallons of water) and apply as noted above.

Physical Properties

Color	Amber Liquid
Odor	Mild Waxy Odor
Specific Gravity	1.023
Density	8.42 lbs./gal
pH	Neutral
Flash Point	None
Solubility	Water Soluble

Availability

CONCRETE RELEASE AID 40 is available in UN approved 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers and MSDS. Normal precautions for industrial chemicals apply.
