## PRODUCT BULLETIN

### CPR 140 Paint Stripper

#### General Description

**CPR 140** is a non-methylene chloride, non-butyl cellosolve, non-caustic soda blend of organic solvents that will penetrate, loosen and remove industrial paints, oil and grease and carbon deposits from ferrous and non-ferrous metal surfaces.

**CPR 140** is considered non-hazardous and is free of phosphate and chlorinated solvents.

#### Application

**CPR 140** is used at full strength in vat or immersion tank applications. While the product can be used at ambient temperatures, best performance is achieved at 150° - 170° F. When the paint and grime loosens, rinse with a pressure washer to remove residuals.

#### Physical Properties

Form	Liquid
Odor	Slight Aromatic
Specific Gravity	1.04
pH	10.5
Flash Point	197° F
Rinsability	Complete with Water

#### Availability

**CPR 140** is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

#### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
