

## PRODUCT BULLETIN

# ENVIROSPEC 570

## Spotting Fluid

### General Description

**ENVIROSPEC 570** is a high solids, surfactant based, oil soluble, water dispersible, additive for spotting fluids. It effectively increases the soaking rate of spotting oil and at the same time causes dehydration of the wall cake. As the cake dehydrates, it becomes noncohesive and allows penetration of the spotting fluid and wetting of the drill pipe. The force necessary to free the pipe is therefore greatly reduced.

### Application

One gallon of **ENVIROSPEC 570** per barrel of spotting fluid for weighted and un-weighted drilling fluid.

### Physical Properties

Viscosity	100
Specific Gravity	1.01 - 1.05
pH, 5% aqueous dispersion	7.25 - 7.50
Pour Point	< 18° F
Flash Point	425° F

### Availability

**ENVIROSPEC 570** is available in UN approved 55 gallon drums and bulk quantities.

### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
