PRODUCT BULLETIN

ETC 145-20

Citrus Degreaser / Decontaminate

General Description

ETC 145-20 is citrus solvent-based blend of aliphatic solvents, and citrus oil formulated for general cleaning of all types of surfaces not affected by water. **ETC 145-20** is an excellent cleaner for “closed loop” systems as it will not emulsify in water. **ETC 145-20** will not emulsify in water solutions unless surfactants or detergents are present. **ETC 145-20** is excellent as a decontamination component for oil spill equipment and personnel. **ETC 145-20** helps reduce waste during decontamination by remaining in the oil phase thus allowing for efficient oil/water separation.

ETC 145-20 contains special additives which provide emollient action on plastics and fabrics.

Application

ET 145-20 can be applied by almost any means including mops, rags or spray equipment. Allow solutions to penetrate deposits before rinsing. Do not allow cleaning solutions to dry on surfaces before hosing.

Dilutions

ET 145-20 should be used as provided.

Physical Properties

Color	Clear to Light Amber
Density	7.80 - 7.90 lbs./gallon
Flash Point	145 - 150 ^B F
Solubility	Oil Soluble

Availability

ET 145-20 is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
