PRODUCT BULLETIN

ETC-145P

Citrus Degreaser / Decontaminate

General Description

ETC-145P is a solvent-based blend of aliphatic solvents, formulated for general cleaning of all types of surfaces not affected by water. **ETC-145P** is an excellent cleaner for “closed loop” systems as it will not emulsify in water. **ETC-145P** will not emulsify in water solutions unless surfactants or detergents are present. **ETC-145P** is excellent as a decontamination component for oil spill equipment and personnel. **ETC-145P** helps reduce waste during decontamination by remaining in the oil phase thus allowing for efficient oil/water separation.

ETC-145P contains special additives which provide emollient action on plastics and fabrics.

Application

ETC-145P can be applied by almost any means including mops, rags or spray equipment. Allow solutions to penetrate deposits before rinsing. Do not allow cleaning solutions to dry on surfaces before hosing.

Dilutions

ETC-145P should be used as provided.

Physical Properties

Color	Clear to Light Amber
Density	7.88 lbs./gallon
Flash Point	160BF
Solubility	Oil Soluble

Availability

ETC-145P is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
