PRODUCT BULLETIN

LAUNDRY 2000

Economical Industrial Powdered Laundry Cleaner

General Description

LAUNDRY 2000 is a industrial strength powdered laundry detergent formulated for use in general purpose cleaning of oily dirt and soils on clothing. **LAUNDRY 2000** gets all your laundry, from washable cottons to heavily soiled work clothes, cleaner, softer, brighter, and fresher than you ever imagined, even in cold or hard water. **LAUNDRY 2000** is a mild alkaline powder, specially formulated to provide maximum penetration and cleaning of soils. Rinses free of soap residue and hard water deposits; the primary cause of skin irritation. Natural all temperature oxygen bleach brightens colors and whites, helps remove stain and mildew odor, and eliminates sour odors. Great news for bath towels! Contains natural anti-corrosion agents to prevent rust and protect washers.

Application

Always sort & wash colors and fabrics that can bleed, separately from whites. Always follow fabric manufacturer's laundering procedures.

Top Loading Washers:

Full Loads: Use $\frac{3}{4}$ scoop. Half Loads: Use $\frac{1}{2}$ scoop. Add soap to washer, start water, sort & add laundry.

Front Load Washers:

Use as recommended by washer manufacturer. Won't Over-foam!
