## PRODUCT BULLETIN

### ODOR ELIMINATOR 71

#### Odor Control Solution

##### General Description

**ODOR ELIMINATOR 71** is an environmentally safe, liquid, malodor eliminator and neutralizer used for industrial based odors consisting of sulfides, caustics, mercaptans, amines, styrene, ammonia, fuel oils or other strong industrial malodors. **ODOR ELIMINATOR 71** is especially effective in high pH ranges such as found in spent caustic tank cleaning. **ODOR ELIMINATOR 71** is a natural, environmentally safe product so technologically advanced, that after the odor is eliminated; only a clean air smell remains. **ODOR ELIMINATOR 71** removes odors of smoke, grease and most offensive odors by absorbing them.

##### Application

**ODOR ELIMINATOR 71** can be batch treated into the liquid malodor source or atomized and/or sprayed into the atmosphere for complete neutralization of emissions. Due to varying concentrations in liquids, titration of solutions with **ODOR ELIMINATOR 71** is recommended to get precise treating ratios. Generally 1oz. per gallon of liquid is sufficient to neutralize liquids. For air borne applications, 1-2 oz. per gallon of water dilution is recommended. For extremely odorous conditions, **ODOR ELIMINATOR 71** can be used as provided via soak or atomizing spray.

##### Physical Properties

Odor	Fresh Fruity Odor
Solubility	Dispersible in water
Specific Gravity in H <sub>2</sub> O	0.994
pH	7.0
Freezing Point	32° F
Boiling Point	212° F
Flash Point	Non-Flammable

##### Availability

**ODOR ELIMINATOR 71** is available in UN approved 5 gallon, 6 gallon pails, 20 gallon, 30 gallon and 55 gallon drum quantities.

##### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
