## PRODUCT BULLETIN

### QUICK DRY 35

#### Non-Chlorinated Safety Solvent

##### General Description

**Quick Dry 35** was made especially for generator and electrical motor cleaning and degreasing. **Quick Dry 35** is formulated with natural citrus oils and aliphatic solvents that have a high evaporation rate and will not leave a residual film. **Quick Dry 35** will have no deleterious effect on wiring, metal, or plastic. This product does not contain Methyl Chloroform (111 Solvent) or any other type of Chlorinated Solvent.

**Quick Dry 35** may be used on grease, oil, hydrocarbons, paraffins and resins. It is nonflammable, non-corrosive and non-conductive; it is self-evaporating at ambient temperatures and it does not leave a residue.

##### Application

Apply as a spray or a wipe. Spray undiluted on all parts for best results. **Quick Dry 35** may be diluted with kerosene, diesel or other high flash solvents for economy in general degreasing of equipment.

##### Physical Properties

|                     |              |
|---------------------|--------------|
| Specific Gravity    | .80 - .85    |
| Dielectric Strength | 35,000 volts |
| KB Value            | 124          |
| Boiling Point       | > 160° F     |
| Flash Point         | > 125° F     |

##### Availability

**Quick Dry 35** is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

##### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
