

PRODUCT BULLETIN

SPEC SOL 999

Specialized Solvent Cleaner

General Description

SPEC SOL 999 is a combination of aromatic solvents, proprietary glycol ethers, and natural organic oils specially blended to be used in degreasing and chemical cleaning processes. **SPEC SOL 999** can be used as an organic dispersant, heavy oil, grease, and condensate solvating agent. **SPEC SOL 999** contains asphaltine inhibitors to help prevent the redeposit of asphalt contamination to cleaned surfaces. **SPEC SOL 999** is effective wherever tenacious oils, tars, or greases pose a problem for conventionally formulated cleaning compounds. **SPEC SOL 999** will not emulsify in water solutions unless surfactants or detergents are present.

Application

SPEC SOL 999 is excellent as a pipe thread cleaner, valve cleaner, for drip pans, for use as a degreaser in closed circulation systems or as a bulk degreaser in cleaning process vessels. Extreme care should be used when handling this material to avoid contact with flame or welding arcs. Proper engineering controls must be used when using this product.

Physical Properties

Color	Clear
Odor	Solvent
Specific Gravity	.086 - 0.89
Flash Point	> 100° F
Boiling Point	> 300° F

Availability

SPEC SOL 999 is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
