PRODUCT BULLETIN

TEKSTRIP-42NC

Vat Dip/Cabinet Washing Compound

General Description

TEKSTRIP-42NC is a free-flowing, non-volatile crystalline powder specially formulated with corrosion inhibiting properties to prevent metal attack when used in low to moderate cabinet pressure units. **TEKSTRIP-42NC** will effectively remove grease, light carbon, loose paint and oily dirt from ferrous metal, aluminum, copper, brass and stainless steel without damaging the metal surface.

TEKSTRIP-42NC is non-fuming in dry or solution form. No corrosive gases form in storage or during application.

Physical Properties

Odor	Citrus
Appearance	Yellow Powder
Specific Gravity	1.25
Freeze Point, ° F	None

Application

TEKSTRIP-42NC is diluted in water in closed system, recirculating parts washers from 8-12 ounces per gallon of water. Higher concentrations maybe needed for extremely soiled engine heads, oil pans or pistons. Pre-washing with a 5% solution of **TEKSTRIP-42NC** will extend the life of the washer liquid.

Availability

TEKSTRIP-42NC is available in UN approved 450 pound drums and 50 pound pails.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply. Follow approved lead paint disposal methods.
