PRODUCT BULLETIN

DG-165

Heavy Duty Biodegradable “Clean-in-Place” Degreaser

General Description

DG-165 is a water-based blend of nonionic surfactants, chelators and penetrants formulated for general cleaning of all types of surfaces not affected by water. **DG-165** is an excellent oil emulsifying degreaser with strengths varying with the degree of dilution with water. **DG-165** is formulated to be diluted with water and used as a “clean-in-place” detergent for heavy oily deposits. **DG-165** is non-toxic, does not contain any caustics, solvents, or any EPA rated hazardous ingredients. **DG-165** is easily rinsed with water leaving no residue.

Application

DG-165 can be applied by almost any means including mops, rags or spray equipment. When diluted at 20:1, **DG-165** is a very effective spray and wipe cleaner for heavy oily soils on equipment. When used below 20:1, **DG-165** is a fast penetrating degreaser that rinses easily with water leaving no residue.

Physical Properties

Color	Fluorescent Yellow
Odor	Bland
Water Solubility	100%
Specific Gravity	1.02
Density	8.5 lbs./gallon
pH	< 12.5
Flash Point	None

Dilutions

DG-165 is a concentrated cleaner and should be diluted for best results. For “Clean-in-Place”:

Heavy	1 part DG-165	20 parts water
Medium	1 part DG-165	20 to 30 parts water
Light	1 part DG-165	30 to 50 parts water

For rinse applications, dilute as needed for soil conditions.

Availability

DG-165 is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
