PRODUCT BULLETIN

AMS 1533C CLEANER

Cleaner for Exterior Aircraft Surfaces

General Description

AMS 1533C Cleaner is a ready-to-use, environmentally safe, hydrocarbon-free, alkaline cleaner which has been thickened to provide excellent “cling” to vertical surfaces. **AMS 1533C Cleaner** is a non-toxic heavy-duty cleaner specifically designed to clean the soils and contaminants found in the wheel and flap well areas, engine nacelles and exhaust tracks. The product is safe for use on all aircraft substrates and coatings.

Application

Apply **AMS 1533C Cleaner** as received for use as a gel, or 10% in water for non-gel use. Each dilutions can be applied using pressure spray, foam equipment, or bucket and brush. Allow product 5 to 15 minutes dwell time, depending on the nature of the soil being removed. Brush if necessary, then thoroughly rinse with water.

Specification Conformance

AMS 1533C Cleaner tested and conforms to NASA NHB 8060.1c, Test 13A, ARP 1755A, GEAE CT 882, Boeing BAC 5763, Boeing D6-I7487 Revision J, Douglas CSD #1, MILC-87937A Type III, MIL-C-83873B, SECTION 3.7.5, AMS 1533. This list is not all-inclusive.

Physical Properties

Color	Pale Yellow to Amber
Odor	Mild Detergent
Specific Gravity	0.99 – 1.02
pH	9.50 – 12.50
Flash Point	None
Solubility	Complete

Availability

AMS 1533C Cleaner is available in UN approved 5-gallon pails, 55-gallon drums and bulk quantities.

Handling

Observe warning labels on containers. Normal precautions for industrial chemicals apply. This document does not purport to address all of the safety concerns, if any, associated with its use. It is the responsibility of the user of this product to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use.
