

## PRODUCT BULLETIN

# ORANGE RELEASE

## Oil Dispersant/Cleaner

### General Description

**ORANGE RELEASE** is a water soluble, highly rinsable combination of blended citrus oils, mild natural detergents, and biodegradable surfactants that work extremely well in fresh or brine water. **ORANGE RELEASE** is suitable for use in fresh water, brackish, or open sea oil spill containment, dispersing, and clean up. The balanced emulsification system and neutral pH are ideally suited for degreasing tanks and barges before welding or personnel entry. Excellent for inland water barge/rig cleaning applications.

### Application

**ORANGE RELEASE** is very mild and may be used on any surface not affected by water or mild solvents. The emulsification properties and neutral pH of **ORANGE RELEASE** make it an ideal degreaser and dispersant. **ORANGE RELEASE** may be applied by mop, brush or spray. Allow penetration prior to hosing off. \*

### Dilutions

For best results when used as a cleaner, use **ORANGE RELEASE** neat. For extremely soiled surfaces; use as provided. For moderately soiled surfaces; dilute 1 : 5 and use any common solvent (Mineral Spirits, Kerosene, Diesel, etc.). For small oil spills; dilute 1 : 10.

\* Refer to the Technical Data Sheet **ORANGE RELEASE-2 TECHNICAL DATA SHEET** for more specific information concerning oil spills at sea or for inland waters.

### Physical Properties

Color	Clear to Light Amber Liquid
Specific Gravity	0.86
Density	7.17 lbs./gal
pH	6-8 (non-corrosive)
Flash Point	~ 60° C

### Availability

**ORANGE RELEASE** is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

### Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
