PRODUCT BULLETIN

SDG-5240

Solvent Degreaser / Cleaner

General Description

SDG-5240 is a combination of aliphatic and aromatic solvents, and detergents specially formulated to be used in degreasing and chemical processes. **SDG-5240** contains a proprietary surfactant package that greatly accelerates the penetration of cleaner into soils and allows for emulsification of oily soils into a water phase.

Application

SDG-5240 is excellent as a pipe thread cleaner, bilge cleaners, engine degreasing, degreaser in closed circulation systems or a bulk degreaser in cleaning process vessels.

Physical Properties

Color	Light Amber
Odor	Typical
Specific Gravity	.925
Flash Point	126° F
Boiling Point	290° F - 330° F

Availability

SDG-5240 is available in UN approved 5 gallon pails, 55 gallon drums and bulk quantities.

Handling

Observe warning label on containers. Normal precautions for industrial chemicals apply.
