

Safety Data Sheet (ACETIC ACID 99%)

1 – PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME:..... ACETIC ACID 99%
**CHEMICAL NAME/
CLASS/SYNONYMS:** Acetic acid, glacial / alcohol of vinegar / carboxylic acid C2 / ethanoic acid / ethylic acid / methanecarboxylic acid / pyrolygneous acid / vinegar acid
PRODUCT NUMBER: ACETIC ACID 99%
UN/NA NUMBER: 2789
CHEMICAL FAMILY: Acid, Organic
CAS NUMBER: 64-19-7
FORMULA: H₂H₄O₂
COMPANY:..... **JMN Specialties, Inc.**
1100 Victory Drive – Westwego, Louisiana USA 70094
Phone (504) 341-3749, Fax (504) 341-5868
www.jmnspecialties.com
EMERGENCY PHONE: CALL CHEMTEL: Toll Free US & Canada: (800) 255-3924, Outside USA +01-813-248-0585. Contract #: MIS0002833.
DATE PREPARED: September 16, 2015

2 – HAZARDS IDENTIFICATION

GHS HAZARD CLASSIFICATION:

Physical Hazards

Flammable Liquids:..... . Category 3 - Flammable liquid and vapor

Health Hazards

Acute Toxicity (Oral): Category 4 - Harmful if swallowed, in contact with skin, inhaled

Skin Corrosion/Irritation: Category 1A - Causes severe skin burns and eye damage

Serious Eye Damage/Irritation: Category 1 - Causes severe eye damage

Aspiration Hazard:..... . Category 1 - May be fatal if swallowed and enters airways

WARNING LABEL ITEMS INCLUDING PRECAUTIONARY STATEMENTS:

Pictograms:

SIGNAL WORD:..... DANGER!

GHS HAZARD AND PRECAUTIONARY STATEMENTS:

H226: Flammable liquid and vapour

H312 H332: Harmful in contact with skin or if inhaled

H314: Causes severe skin burns and eye damage

P101+102+103: If medical advice is needed, have product container or label at hand. Keep out of the reach of children. Read label before use.

P202+270+280+281: Do not handle until all safety precautions have been read and understood. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face

Safety Data Sheet (ACETIC ACID 99%)

protection. Use personal protective equipment as required.
 P210: Keep away from heat/sparks/open flames/hot surfaces – No smoking
 P240: Ground/bond container and receiving equipment
 P241: Use explosion-proof electrical/ventilating/lighting/equipment
 P242: Use only non-sparking tools
 P243: Take precautionary measures against static discharge
 P301+330+331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
 P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing
 P312: Call a POISON CENTER or doctor/physician if you feel unwell

P501: Dispose of contents/container: Treatment, storage, transportation and disposal must be in accordance with Federal, State/Provincial and Local Regulations, and product characteristics at time of disposal.

TOTAL VOC's: 100%

3 – COMPOSITION / INFORMATION ON INGREDIENTS

HAZARDOUS INGREDIENT	PERCENT	CAS NUMBER
Acetic Acid	> 99%	64-19-7
Water	< 1%	7732-18-5

4 – FIRST-AID MEASURES

BREATHING (INHALATION): Remove from exposure area to fresh air immediately. If breathing has stopped, perform artificial resuscitation. Keep person warm and at rest. Treat symptomatically and supportively. Seek medical attention immediately. Qualified medical personnel should consider administering oxygen.

SWALLOWING (INGESTION): Give large amounts of fresh water or milk immediately. Do not give anything by mouth if person is unconscious or otherwise unable to swallow. If vomiting occurs, keep head below hips to prevent aspiration. Treat symptomatically and supportively. Seek medical attention immediately.

EYES: Flush eye with copious quantities of water. If persistent irritation occurs, obtain medical attention. If liquid Acetic Acid or solutions containing Acetic Acid get into the eyes, flush eyes immediately with a directed stream of water for at least 30 minutes while forcibly holding eyelids apart to ensure complete irrigation of all eye and lid tissue. **GET MEDICAL ATTENTION IMMEDIATELY.** Contact lenses should not be worn when working with this chemical.

SKIN (DERMAL):..... Remove contaminated clothing and wash affected skin with soap and water. If persistent irritation occurs, obtain medical attention. When using high pressure equipment, injection of product under the skin can occur. If high pressure injuries occur, the casualty should be sent immediately to a hospital. Do not wait for symptoms to develop.

NOTE TO PHYSICIAN: Inhalation: Consider administration of corticoid spray. All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Safety Data Sheet (ACETIC ACID 99%)

5 – FIRE-FIGHTING MEASURES

GENERAL FIRE HAZARDS: Emergency responders in the danger area should wear bunker gear and self-contained breathing apparatus for fires beyond the incipient stage (29CFR 1910.156). In addition, wear other appropriate protective equipment as conditions warrant (see Section 8). Contact with water may generate heat. Isolate damage area, keep unauthorized personnel out. Stop spill/release if it can be done with minimal risk. Move undamaged containers from danger area if it can be done with minimal risk. Fires involving small amounts of combustibles may be smothered with suitable dry chemicals. Use water on combustibles burning but avoid using water directly on acid as it results in evolution of heat and causes splattering.

AUTOIGNITION TEMP: 905°F (485°C)

EXTINGUISHING MEDIA: Fires involving small amount of combustibles may be smothered with suitable dry chemical, soda ash, lime, sand or CO₂. Use water on combustibles burning in vicinity of this material but use care as water applied directly to this acid result in evolution of heat and causes splattering. Water may be ineffective in fighting the fire. Use water spray to keep fire-exposed containers cool.

SPECIAL FIRE FIGHTING

PROCEDURES: Acetic Acid at a high concentration can cause very serious damage upon contact. It burns the cornea and can lead to permanent blindness if splashed onto eyes. Spilled product on ground may be slippery. Accordingly, safety precautions should be strictly observed when handling or cleaning it when spilled as the result of a fire.

UNUSUAL FIRE AND

EXPLOSION HAZARDS: Containers may explode from internal pressure if confined to fire. Cool with water spray.

6 – ACCIDENTAL RELEASE MEASURES

SPILL PROCEDURES: Wear appropriate personal protective equipment before approaching spill site. For small spills, dilute with water to sewer if allowed by local and state regulations. If unable to wash product with water, absorb with inert material (sand or other approved material) and dispose of in accordance with applicable regulations.

WASTE DISPOSAL: Treatment, storage, transportation and disposal must be in accordance with Federal, State/Provincial and Local Regulations. Regulations may vary in different locations. Characterization and compliance with applicable laws are the responsibility solely of the generator. Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

RCRA STATUS: If discarded in its purchased form, this product is considered a RCRA hazardous waste. It is the responsibility of the product user to determine at the time of disposal, whether a material containing the product should be classified as a hazardous waste. (40CFR261.20-24).

Safety Data Sheet (ACETIC ACID 99%)

7 – HANDLING and STORAGE

STORAGE: Keep in a tightly closed container, stored in a cool, dry, ventilated area below 44°C (110°F). Protect against physical damage. Isolate from incompatible substances. Containers of this material may be hazardous when empty since they retain product residues (vapors, liquid); observe all warnings and precautions listed for the product. Drum must not be washed out or used for other purposes.

HANDLING:..... Avoid contact with eyes, skin and clothing. Do not inhale vapors and fumes. Wash thoroughly after handling. Use only with adequate ventilation. Do not take internally. For industrial use only.

8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

OCCUPATIONAL EXPOSURE LIMITS

HAZARDOUS INGREDIENT	PEL	TLV-TWA
Acetic Acid	10 ppm	10 ppm
Water	None Established	None Established

EXPOSURE CONTROLS: Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Please refer to the ACGIH document, *Industrial Ventilation, A Manual of Recommended Practices*, most recent edition, for details.

RESPIRATORY PROTECTION: If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. In the United States of America, if respirators are used, a program should be instituted to assure compliance with OSHA Standard 63 FR 1152, January 8, 1998. Respirator type: Air-purifying respirator with an appropriate, government approved (where applicable), air-purifying filter, cartridge or canister. Contact health and safety professional or manufacturer for specific information. Self-Contained Breathing Apparatus may be required for use in confined or enclosed spaces.

PROTECTIVE CLOTHING: **Eye/face protection:** Wear chemical goggles; face shield (if splashing is possible). **Skin protection:** Chemical resistant, impermeable gloves. Gloves should be tested to determine suitability for prolonged contact. Use of impervious apron or chemical suit and chemical resistant boots are recommended.

Safety Data Sheet (ACETIC ACID 99%)

ADDITIONAL MEASURES: Avoid contact with the skin and avoid breathing vapors. Do not eat, drink, or smoke in work area. Wash hands before eating, drinking, or using restroom. Do NOT place food, coffee or other drinks in the area where dusting or splashing of solutions is possible. Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Safety shower and eye wash should be available close to work areas.

9 – PHYSICAL / CHEMICAL PROPERTIES

BOILING POINT: 244.4°F (118°C)
FREEZING POINT: 62°F (16.6°C)
FLASHPOINT: 102.2°F (39°C)
UPPER FLAME LIMIT (%): 19.9%
LOWER FLAME LIMIT (%): ... 4%
VAPOR PRESSURE: 11.4 mm Hg @ 20°C
VAPOR DENSITY (AIR=1):..... 2.10 (Air=1)
SPECIFIC GRAVITY: 1.05
pH: 2.4 (6%)
SOLUBILITY IN WATER:..... 100%
VOLATILITY
INCLUDING WATER: 8.757 pounds per gallon
MOLECULAR WEIGHT: 60.04
EVAPORATION RATE: < 1
PHYSICAL STATE: Liquid
COLOR: Clear
ODOR:..... Irritating/pungent odor. Vinegar odor

10 – STABILITY and REACTIVITY

STABILITY: Stable
HAZARDOUS DECOMP.:..... Will not occur
INCOMPATIBILITY: May react violently with alkalis. May react with bases, copper, silver, mercury, magnesium, zinc and their alloys.
HAZARDOUS REACTIONS: On heating: release of corrosive/combustible gases/vapours (acetic acid vapours). Upon combustion: CO and CO₂ are formed. Violent to explosive reaction with many compounds e.g.: with (strong) oxidizers: (increased) risk of fire/explosion. Reacts violently with (some) bases. Reacts with (some) metals: release of highly flammable gases/vapours (hydrogen).

11 – TOXICOLOGICAL INFORMATION

No teratogenic effects were observed among the offspring of mice, rats, or rabbits that had been given very large doses of apple cider vinegar (containing acetic acid) during pregnancy.

THRESHOLD LIMIT VALUE: 10 ppm
OSHA PEL: 10 ppm
LISTED CARCINOGEN:..... Acetic Acid has produced no genetic changes in standard tests using bacterial cells.

Safety Data Sheet (ACETIC ACID 99%)

MEDICAL CONDITION

AGGRAVATED:..... Overexposure to Acetic Acid mist may cause lung damage and aggravate pulmonary conditions. Contact of Acetic Acid with skin may aggravate diseases such as eczema and contact dermatitis.

INFORMATION ON ACUTE TOXICOLOGICAL EFFECTS

ORAL

Product:..... Corrosive. Causes serious burns of the mouth or perforation of the esophagus or stomach. May be fatal if swallowed.

DERMAL

Product:..... Corrosive. Splashes on the skin will cause skin burns. Direct contact can be severely irritating to the skin and may result in redness, swelling, burns and possible severe skin damage.

INHALATION

Product:..... Corrosive. May be harmful or fatal if inhaled. May cause severe irritation and burns of the nose, throat and respiratory tract.

REPEATED DOSE TOXICITY

Product:..... Acetic Acid has produced no genetic changes in standard tests using bacterial cells. No data on other effects on Humans.

SKIN CORROSION / IRRITATION

Product:..... The results of single exposure tests indicate that exposure of acetic acid is slightly toxic after skin application. Following a 24-hour exposure, irreversible eye and skin damage is possible.

SERIOUS EYE DAMAGE / IRRITATION

Product:..... Corrosive. Direct contact with the liquid or exposure to vapors or mists may cause stinging, tearing, redness, swelling, corneal damage and irreversible eye damage. Splashes in the eyes will cause severe burns. Contact lenses should not be worn when working with this chemical.

RESPIRATORY OR SKIN SENSITIZATION

Product:..... Repeated exposure of workers to the mist causes chronic conjunctivitis, tracheobronchitis, stomatitis, and dermatitis.

MUTAGENICITY

IN VITRO

Product:..... Salmonella typhimurium assay (Ames test), Bacterial Reverse Mutation Assay : negative +/- activation. Chromosomal aberration, In vitro Mammalian Chromosome Aberration Test : negative +/- activation

IN VIVO

Product:..... Chromosomal aberration Inhalation - vapor (Rat): negative Read-across from a similar material.

Specified Substance(s)

Information as provided by manufacturer

Acetic Acid

CARCINOGENICITY

Product:..... NOT a suspected Human carcinogen.

REPRODUCTIVE TOXICITY

Product:..... Based on the available test data, not expected to cause adverse effects on reproduction.

SPECIFIC TARGET ORGAN TOXICITY – SINGLE EXPOSURE

Product: **GENERAL:** This product contains acids that are corrosive and can cause severe and painful burns on contact with any part of the body or if taken internally. The mucous membranes of the eyes and the upper respiratory tract are especially susceptible to these irritating effects. **INHALATION:**

Safety Data Sheet (ACETIC ACID 99%)

Inhalation of excessive concentrations of mist or vapor can cause severe irritation of the upper respiratory tract, resulting in coughing, burning of the throat, and a choking sensation. If inhaled deeply, edema of the lungs may occur. **EYES:** Contact with this product, either in gas or in solution, can cause severe irritation and painful burns of the eyes and eyelids. The acid **MUST** be removed quickly with thorough irrigation with water or there may be prolonged or permanent visual impairment or total loss of sight. **SKIN:** Concentrated solutions are destructive to clothing and on contact with skin, can cause severe burns unless promptly washed off. **INGESTION:** This product, when swallowed, can cause severe burns of the mucous membranes of the mouth, esophagus and stomach.

SPECIFIC TARGET ORGAN TOXICITY – REPEATED EXPOSURE

Product:..... The effects of long-term, low-level exposures to this product have not been determined. Safe handling of this material on a long-term basis should emphasize the avoidance of all effects from repetitive acute exposure. This product may aggravate existing eye, skin, and respiratory conditions.

ASPIRATION HAZARD

Product:..... Droplets of the product aspirated into the lungs through ingestion or vomiting may cause chemical pneumonia.

OTHER ADVERSE EFFECTS

Product:..... No data available

12 – ECOLOGICAL INFORMATION

ACUTE TOXICITY

FISH

Product:..... LC-50 (Fathead Minnow, 96 h): 300.82 mg/l

AQUATIC INVERTEBRATES

Product:..... EC-50 (daphnid, 48 h): > 300.82 mg/l

CHRONIC TOXICITY

FISH

Product:..... No data available

AQUATIC INVERTEBRATES

Product:..... NOEC/NOEL > 100 mg/l. (based on similar products / components)

TOXICITY TO AQUATIC PLANTS

Product:..... EC-50 (Alga, 72 h): 300.82 mg/l

PERSISTENCE AND DEGRADABILITY

BIODEGRADATION

Product:..... Readily biodegradable in water. Inherently biodegradable.
Biodegradable in the soil.

BIOLOGICAL OXYGEN DEMAND

Product: BOD-5: 340 - 880 mg/g, BOD-20: 900 mg/g

CHEMICAL OXYGEN DEMAND

Product: 1,030 mg/g

BOD / COD RATIO

Product:..... No data available

BIOACCUMULATIVE POTENTIAL

Product:..... Bioaccumulation: not applicable.

MOBILITY IN SOIL

Product:..... Known or predicted distribution to environmental compartments, Acetic Acid: 0.062 (QSAR model).

Safety Data Sheet (ACETIC ACID 99%)

RESULTS OF PBT AND mPvB ASSESSMENT

Product: Not fulfilling PBT (persistent/bioaccumulative/toxic) criteria. Not fulfilling vPvB (very persistent, very bioaccumulative) criteria.

OTHER ADVERSE EFFECTS

Product: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this product.

13 –DISPOSAL CONSIDERATIONS

WASTE DISPOSAL: Treatment, storage, transportation and disposal must be in accordance with Federal, State/Provincial and Local Regulations. Regulations may vary in different locations. Characterization and compliance with applicable laws are the responsibility solely of the generator. Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

RCRA STATUS:..... If discarded in its purchased form, this product is considered a RCRA hazardous waste. It is the responsibility of the product user to determine at the time of disposal, whether a material containing the product should be classified as a hazardous waste. (40CFR261.20-24).

14 – TRANSPORTATION INFORMATION

Important Note: Shipping descriptions may vary based on mode of transport, quantities, package size, and/or origin and destination. Consult your company's Hazardous Materials/Dangerous Goods expert for information specific to your situation.

UN/NA NUMBER: 2789

PROPER SHIPPING NAME: Acetic acid, glacial (with more than 80 percent acid, by mass)

HAZARD CLASS:..... 8 (3)

PACKAGING GROUP :..... II

LETTER:..... C (Corrosive substances)

ENVIRONMENTAL HAZARD: Acetic Acid is, with high probability, not acutely harmful to aquatic life and it does not accumulate in the food chain.

REPORTABLE QUANTITY: 5000 pounds (2267.96 kilograms)

Safety Data Sheet (ACETIC ACID 99%)

15 - REGULATIONS

This Safety Data Sheet conforms to ANSI Z400.5, and to the format requirements and the International Chemical Safety Cards of the Global Harmonizing System. This SDS complies with 29 CFR 1910.1200 (HAZARD COMMUNICATION STANDARD). **IMPORTANT:** Read this SDS before handling & disposing of this product. Pass this information on to employees, customers, & users of this product.

EPA SRA Title III Chemical Listings:

TSCA STATUS:..... This product is listed on the TSCA inventory. If this product is a blend, all ingredients in the product are listed on the TSCA Inventory List. Any impurities present in this product are exempt from listing.

SECTION 302:..... None of the chemicals in this product have a Threshold Planning Quantity (TPQ).

SECTION 304:..... Not Listed

SECTION 312:..... Acetic Acid

SARA SECTION 313:..... Not Listed as per the reporting requirements of Section 313 of SARA Title III and 40 CFR Part 373.

ACUTE:..... Yes

CHRONIC: No

FIRE: Yes

PRESSURE: No

REACTIVE:..... No

CLEAN WATER ACT: ACETIC ACID (CAS# 64-19-7) is listed as a Hazardous Substance under the CWA. None of the chemicals in this product are listed as Priority Pollutants under the CWA. None of the chemicals in this product are listed as Toxic Pollutants under the CWA.

IMDG – International Marine Dangerous Goods Code

UN 2789 ACETIC ACID, GLACIAL 8 (3) PG II. EmS F-E, S-C. Marine Pollutant: No. Static Accumulator: No.

IATA

UN 2789 ACETIC ACID, GLACIAL 8 (3) PG II

DEA Chemical Trafficking Act:.. No
